### SUMMARY

Result-oriented **Full Stack Developer** with a BS in Computer Science. Expertise in building high-performance, scalable web applications using **Next.js 15, React, and Tailwind CSS**. Strong track record of developing complex SaaS dashboards and modern digital solutions. Dedicated to clean code architecture, professional-grade software development, and staying ahead of modern web trends. A proactive problem-solver with a strong focus on technical implementation and seamless system integration.

### SKILLS

#### Programming Technologies

Next.js 15, React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5, CSS3.

#### Tools

Git, GitHub, VS Code, Vercel, Postman.

#### Extra Skills

Technical Implementation, Performance Optimization, Cross-Browser Compatibility.

### PROJECT

#### Ahmar Memon — Full Stack Developer Portfolio,

01/2026 – 01/2026

*Minimalist Personal Portfolio | Next.js 15 & Tailwind CSS*

- Designed and developed a sleek, modern personal portfolio using **Next.js 15** and **Tailwind CSS**.
- Implemented a professional, **Dark-Themed Minimalist design** to highlight technical skills and projects.
- Optimized for lightning-fast performance and full responsiveness across all devices, from mobile to desktop.
- Utilized server-side rendering and client-side optimization techniques for an exceptional user experience.
- Focused on creating a strong developer brand through clean, efficient code and intuitive UI.

#### Ahmar Luxe Store, Full-Stack Luxury E-Commerce Platform | Next.js & Tailwind CSS

02/2026 – 02/2026

- Developed a premium, minimalist **e-commerce platform** focused on a high-end user experience and sleek UI design.
- Built using **Next.js 15, React, and Tailwind CSS** to ensure lightning-fast performance and full responsiveness across all devices.
- Implemented complex frontend architecture with a focus on modern design aesthetics and seamless navigation.
- Integrated scalable components for product displays and a streamlined checkout flow, demonstrating full-stack development capabilities.

#### Intelligent Food Advisor – AI-Based Recommendation System, Final Year Project

02/2025 – 09/2025

- Built an AI-powered food recommendation system that suggests the best meal options based on user preferences and dietary constraints.
- Implemented machine learning techniques for prediction and used Python, basic ML libraries, and a simple database to store user data.
- Focused on improving recommendation accuracy, user experience, and applying AI concepts in a real-world scenario.

#### TaskAI — AI-Powered Strategic Roadmap Generator 🚀,

02/2026 – 03/2026

*Full-Stack AI Application | Next.js 15 & Gemini API*

- Engineered a sophisticated **AI-driven SaaS application** that generates comprehensive, strategic roadmaps based on user input.
- Integrated **Google Gemini API** for advanced natural language processing to deliver intelligent and actionable task breakdowns.
- Built the frontend with **Next.js 15** and **Tailwind CSS**, focusing on a clean, professional, and dark-themed minimalist aesthetic.
- Developed custom algorithms to structure AI responses into a logical, step-by-step roadmap for improved user productivity.
- Optimized the platform for speed and responsiveness, ensuring a seamless experience across all screen sizes.

#### Pro-SaaS-Dashboard — Professional Data Visualization Platform 🚀,

01/2026 – 01/2026

*Full-Stack Dashboard | Next.js 15, Tailwind CSS & Chart.js*

- Developed a high-performance **SaaS Dashboard** featuring real-time data visualization and complex UI components.
- Integrated **Dark Mode** functionality and a fully responsive layout using **Tailwind CSS** for a professional, minimalist aesthetic.
- Utilized **Chart.js** to implement dynamic, interactive charts and data tables, providing users with clear and actionable insights.
- Optimized frontend performance using **Next.js 15** server-side features, ensuring smooth navigation and fast rendering across all dashboard modules.

#### Hotel Management System – Academic Project

04/2024 – 05/2024

- Developed a web-based Hotel Management System using HTML, CSS, Tailwind CSS, JavaScript, and SQL database. The system included room booking, customer management, and a fully responsive user interface. Implemented CRUD operations for rooms and customers, with focus on clean design, smooth workflow, and practical learning of front-end and basic database integration.

### EDUCATION

#### Bachelor of Computer Science,

12/2021 – 09/2025 | Nawabshah

*Quaid -e- Awam university of Engineering Science & Techonology Nawabshah*

### CERTIFICATE

#### Certified Web Developer — PITP, Government of Sindh & Sukkur IBA University

12/2023 – 02/2024 | QUEST NAWABSHAH

- Completed a rigorous two-month hands-on training program in professional web development.
- Gained in-depth expertise in modern frontend technologies and industry-standard coding practices.
- Successfully executed real-world projects focusing on responsive design and interactive user interfaces.
- Certified by the Government of Sindh and Sukkur IBA University for technical proficiency.
