

AHMAR ALI MEMON

Full Stack Developer

ahmaralimemon187@gmail.com | +92 345 6187264 | Karachi, Pakistan

↗ ATS Website ↗ LinkedIn ↗ GitHub ↗ Portfolio

SUMMARY

Result-oriented Full Stack Developer with a BS in Computer Science. Expertise in building high-performance, scalable web applications using Next.js 15, React, and Tailwind CSS. Strong track record of developing complex SaaS dashboards and modern digital solutions. Dedicated to clean code architecture, professional-grade software development, and staying ahead of modern web trends. A proactive problem-solver with a strong focus on technical implementation and seamless system integration.

SKILLS

Programming Technologies: Next.js 15, React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5, CSS3

Tools: Git, GitHub, VS Code, Vercel, Postman

Extra Skills: Technical Implementation, Performance Optimization, Cross-Browser Compatibility

EXPERIENCE

Software Engineer Intern, Bloomrix

05/2026 – Present

- Contributing to software and web development projects in a professional development environment.
- Collaborating with team members to develop, test, and maintain web-based applications.
- Assisting in debugging, performance optimization, and implementation of software solutions.

PROJECTS

ATS MDCAT Platform | Next.js, TypeScript, PostgreSQL ↗

06/2026

- Built a live, full-stack exam platform in one week with self-enrollment, auto-generated roll numbers, and a timed 180-question exam engine with negative marking.
- Engineered an anti-cheating system (tab-switch detection, server-enforced time windows, auto-submission) plus real-time scoring and an automatic merit list.
- Built a digital certificate system and admin panel; deployed on Vercel with PostgreSQL.

HSI Pakistan — Institutional Website | Next.js 15, React & Tailwind CSS ↗

04/2026 – 05/2026

- Developed a responsive institutional website with a modern and clean UI/UX design focused on professional presentation and user engagement.
- Implemented structured content architecture with smooth navigation to improve accessibility and overall user experience across all pages.
- Optimized performance and responsiveness to ensure fast loading and seamless functionality on desktop and mobile devices.

TaskAI — Full-Stack AI Application | Next.js 15 & Gemini API ↗

02/2026 – 03/2026

- Developed an AI-driven SaaS application that generates structured roadmaps from user input using advanced AI-based task breakdown.
- Integrated Google Gemini API and implemented custom logic to transform AI responses into organized, step-by-step actionable outputs.
- Built a responsive web application using Next.js 15 and Tailwind CSS with optimized performance and a modern, user-friendly interface across all devices.

Ahmar Luxe Store — Luxury E-Commerce Platform | Next.js 15 & Tailwind CSS ↗

02/2026

- Developed a premium e-commerce platform with a focus on modern UI/UX, delivering a minimalist and high-end user experience.
- Built a fast, fully responsive web application using Next.js 15, React, and Tailwind CSS with optimized performance across all devices.
- Implemented scalable frontend architecture including reusable components, product displays, and a streamlined user navigation flow.

Pro-SaaS-Dashboard — Full-Stack Dashboard | Next.js 15, Tailwind CSS & Chart.js ↗

01/2026

- Developed a high-performance SaaS dashboard with real-time data visualization and advanced UI components for an interactive user experience.
- Implemented dynamic charts and data tables using Chart.js, enabling clear and actionable insights for users.
- Optimized application performance using Next.js 15 features and built a fully responsive, dark-mode-enabled interface with Tailwind CSS.

Intelligent Food Advisor — Final Year Project | AI-Based Recommendation System ↗

02/2025 – 09/2025

- Built an AI-powered food recommendation system that suggests the best meal options based on user preferences and dietary constraints.
- Implemented machine learning techniques for prediction using Python and basic ML libraries, backed by a database to store user data.
- Focused on improving recommendation accuracy and user experience while applying core AI concepts to a real-world use case.

Hotel Management System — Academic Project ↗

04/2024 – 05/2024

- Developed a web-based Hotel Management System using HTML, CSS, Tailwind CSS, JavaScript, and a SQL database.
- Built room booking and customer management modules with a fully responsive, user-friendly interface.
- Implemented full CRUD operations for rooms and customers, focusing on clean design, smooth workflow, and solid front-end/database integration practices.

EDUCATION

Bachelor of Computer Science

12/2021 – 09/2025

Quaid-e-Awam University of Engineering, Science & Technology, Nawabshah

CGPA: 3.54 / 4.0

CERTIFICATE

Certified Web Developer: PITP, Government of Sindh & Sukkur IBA University. Completed a 2-month web development training program focused on modern frontend development, responsive design, and industry-standard coding practices. Built real-world projects and earned certification for technical proficiency.
